school

Founded in Lyon in 1872, Emylon business school is one of the oldest and biggest business schools in France.

148

years of  
experience

410

employees

4100

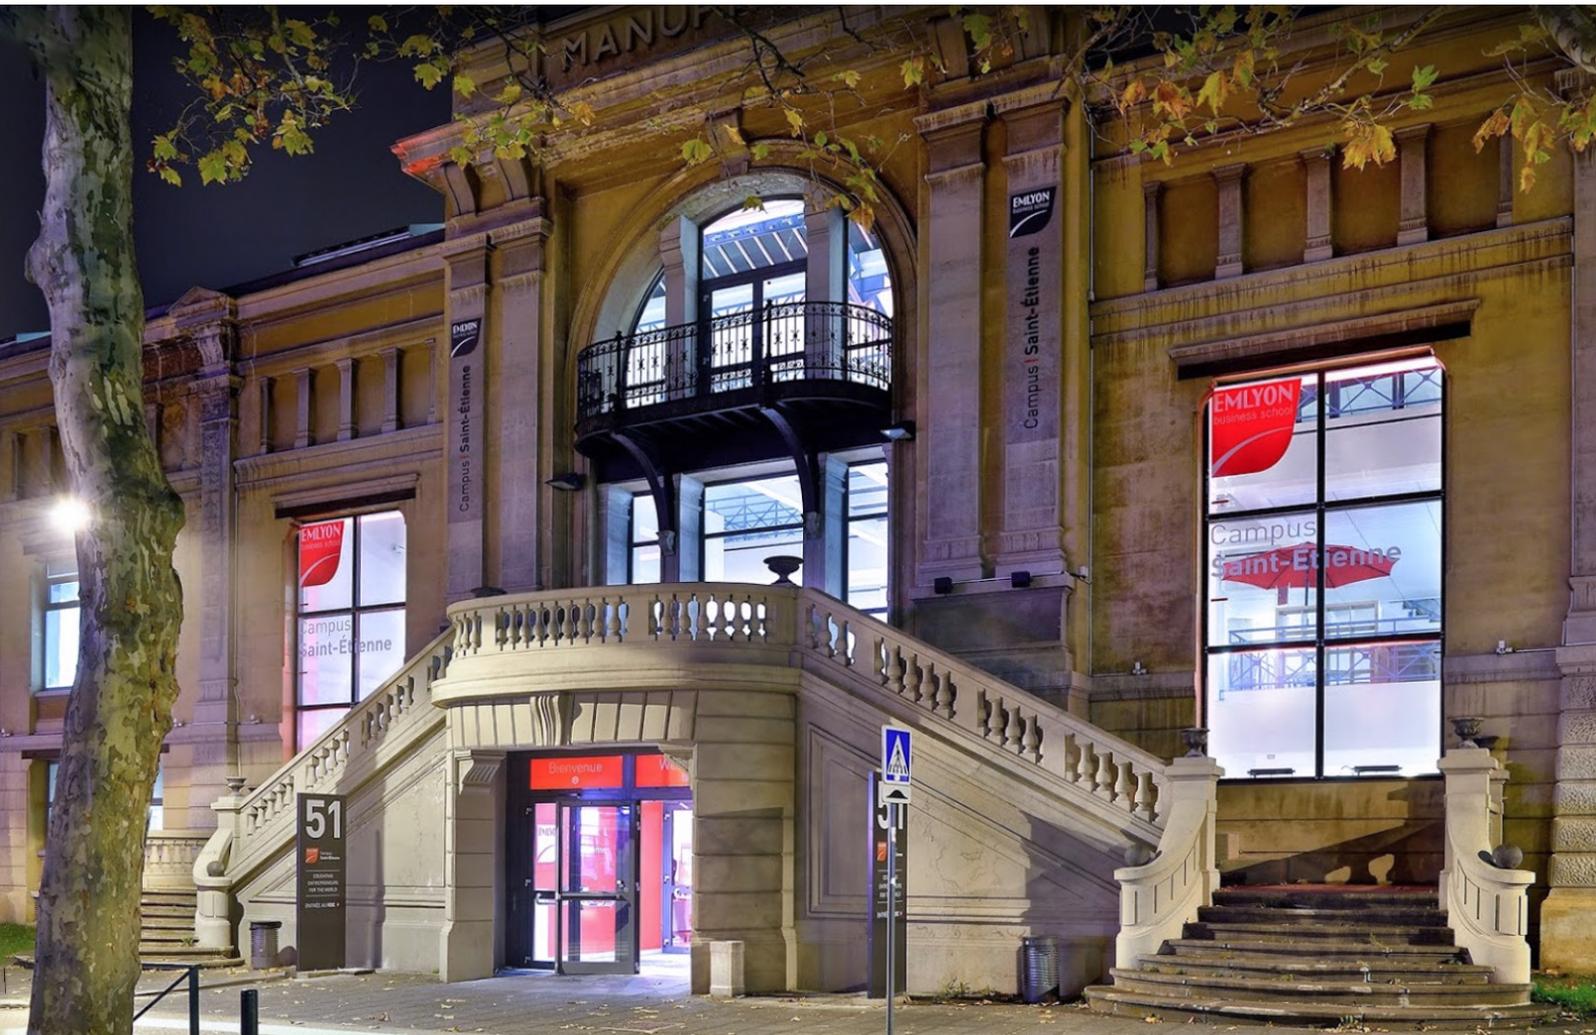

of students

\$133  
M

budget

School campuses are located in Lyon, Paris, Saint-Etienne, Shanghai, Casablanca and Bhubaneswar.

Emlyon academic buildings unite students, teachers, speakers and a wide audience. One of the main tasks of the management is to create an atmosphere of openness ensuring the safety of people and their property at the same time.

“Our main task is to ensure security”

— Jérôme Voog, Campus Director at EMLYON Business School

ST-01 speed gates installed in Saint-Etienne and Paris branches of the school are known for high functionality and spectacular design - main features demanded for the project.

Installed in school campuses, ST-01 turnstiles with standard glass swing panels provide comfortable contactless passage, while a set of speed gates with swing panels of increased width ensures convenient passage of people with reduced mobility.

Campus IDs are used as identifiers to access the area, while students use them as library and payment cards at the same time.

## Project: Emlyon business school, France

Installer:

EREF Sarl

## Equipment: ST-01 speed gates

PERCo - security equipment manufacturer

30 years in the security market

State-of-the-art manufacturing facilities

Export to 90 countries worldwide
