

CINAMON®

Cinamon Holding, headquartered in Tallinn, is one of the leading cinemas in the Baltic States

14

years of operation

4

countries

110

employees

5

cinemas

23

halls

1.5
mln.

visitors per year

“We want to make the cinema an experience not only with a good and fresh selection of films, but also with the coziness, top technology and comfort of interior architecture.”

— Toomas Luhats, Cinamon Holding Commercial Director

PERCo ST-01 speed gates were chosen to ensure security and automated tickets control. High speed operation of the turnstiles provides a comfortable passageway for 60 people per minute, while their modern design fits to the interiors of Cinamon cinemas. Cinamon Holding has chosen Ghost Intelligence Ltd to organize the access control in all the cinemas.

Cinamon's new cinema concept and interior design is developed by Jan Skolimowski from the architectural firm KAMP Arhitektid, prize winner of prestigious award of the Estonian Association of Architects 2016.

Ghost Intelligence has installed ST-01 speed gates and has customized them according to the requirements of cinemas.

Turnstiles were equipped with barcode scanners: access to the cinema is allowed only by presenting a valid ticket.

To make it more comfortable for the visitors speed gates were fitted with with a special extended glass cover for food and beverages.

"We cannot yet reveal all our secrets, but it will become Estonia's most fashionable cinema. We can't accept less because Cinamon's goal is to be innovative."

— Tatiana Tolstaya, head of Cinamon Holding

CINAMON
